# The Little Sister UltraSONICA with Advanced Sweep System Technology.

## Little Sister UltraSONICA

Exclusive  
to Eschmann

**The Little Sister Ultrasonic Cleaners utilise the advanced Sweep System technology to provide effective and reliable cleaning of instruments in the shortest possible time.**

With a Little Sister UltraSONICA, you can receive annual testing with validation and User Training, combined with unrivalled, nationwide support from Eschmann.

# Little Sister UltraSONICA

The Little Sister UltraSONICA uses the latest advanced Sweep System technology for faster and improved cleaning of instruments.

This ultrasonic technology uses a process known as cavitation to safely and effectively clean instruments. This process combined with the Hands Free Instrument Transfer (HFIT) Plus Cassettes, validated for use with the UltraSONICA range, also reduces the risk of injury and cross infection which may occur during manual cleaning.

Available in 3 sizes to suit different processing needs, the Little Sister UltraSONICA incorporates the latest oscillator and transducer technologies with simple, easy to use controls, offering faster and better cleaning than more traditional ultrasonic cleaners.

## Consumables & Accessories

**Cleaning Test Strips x200**  
Part number: 010.008.0003

**Support Base for Cleaning Test x1**  
Product number: 090.004.0072

**Essential Protein Test Pen x25**  
Product number: 3371

**Log Book for Ultrasonic Cleaners**  
Product number: 119878

**Stainless Steel Container for Small Parts**  
Product number: 090.004.0074
